

21 October 2025

We, the undersigned, are deeply concerned by a targeted harassment campaign against Michael Ben-Gad, Professor of Economics at City St George's, University of London, led by a group calling themselves [City Action for Palestine](#). They have mounted a [social media](#) campaign, staged very loud [protests](#) in the University Building, and launched a [Change.org petition](#). They are calling for Professor Ben-Gad to be sacked, on the grounds that he – an Israeli citizen who studied, taught and worked in Israel at various times – served in the Israel Defence Forces in the early 1980s. Israel has long-standing conscription laws for all Jewish, Druze and Circassian citizens, men and women alike, which have been in place since the beginning of the state, so practically anyone else from these groups who came of age in Israel would also have served in the IDF. The harassment campaign has included libellous claims such as branding Professor Ben-Gad a 'terrorist' and 'war criminal', and has made comparable accusations against the President of City St George's, Sir Anthony Finkelstein.

Regardless of diverse views on the recent Gaza war and the history of the Israeli-Palestinian conflict, we deplore any campaign that seeks to intimidate and drive out lecturers because they are Israeli, Jewish, or members of any other group. We are immensely grateful to hear of the strong support given by the President and Senior Leadership Team to the Professor in question, and we wish to register our equal support. Academics and students have a right to go about their work at any university without facing harassment. Attacks of this kind are intimidating, particularly to Jewish students, and set a precedent under which others could be targeted in future. We wish to make clear to what appears to be a small, if very vocal, group that their mobbing tactics will not succeed. We stand together in support of Professor Ben-Gad and his personal and intellectual freedom as an academic.

Sincerely,

Signed
