

MAE113

Discrete Techniques for Computing

Course Information

Autumn 2010

Lecturer: Dr I. Tomašić **Office:** G55 **Email:** i.tomasic@qmul.ac.uk

Office Hours: Tuesday 10:30–11:30, Wednesday 10:30–11:30

Lectures:

Tuesday	9:00–10:00	Bancroft Road 4.02
Wednesday	12:00–13:00	Bancroft Road 4.02
Thursday	11:00–12:00	Francis Bancroft 3.28

Exercise Classes: Thursday 12:00–13:00 Francis Bancroft 3.28

Course information: All information is available on the course web page at

<http://www.maths.qmul.ac.uk/~ivan/MAE113/>

It is recommended that you bookmark this page and visit it regularly.

Notes: Notes will be posted on the course web page after the Wednesday lecture. The lecturer thinks that the online notes should be sufficient for the purposes of this module. Further reading:

– Seymour Lipschutz. *Schaum's Outline of Essential Computer Mathematics*. Schaum's Outline Series, McGraw-Hill 1987.

Assignments: Starting in **week 1**, problem sheets will be posted on the web page on Tuesday or before, and will be due in the lecture on the following Wednesday. There will not be a problem sheet every week.

Work will be handed back in the classes.

Assessment: Coursework 10%; In-term Tests 10%; Examination 80%. The in-term test will be in Week 7.

<p>CALCULATORS ARE NOT PERMITTED in the test or examination for this course.</p>
